

Andrea L. Williamson

UX/UI Designer in Cambridge, MA

PORTFOLIO: <https://andrealeigh.github.io/portfolio/>

About

Seeking a company that engages its users, builds innovative products, and thrives on teamwork. I enjoy solving complex design problems and thrive on teamwork. I have experience with education and healthcare startups and have also previously worked in healthcare. My diverse work history gives me a unique perspective on the importance of collaboration and empathy.

Core Skills & Deliverables

Fluency in:

- User Experience (UX) Design
- User Interaction (UI) Design

- CSS 3
- Sass/SCSS and LESS
- Flexbox
- Github
- Trello
- JIRA

Familiarity with:

- Project Management
- Content Writing
- Wordpress customization
- Hubspot Forms
- Unbounce

Employment Experience

TriNetX, Inc: January 2017 to Present

I am currently working as a full time contract UI designer for a healthcare startup. My day-to-day includes creating wireframes (low-fidelity mockups) via Balsamiq/drawings by hand as well as high-fidelity mockups via Sketch and Invision. I work closely with Product Managers and leadership from the Engineering team.

Freelance UX/UI Designer: August 2016 to December 2016

I worked as a freelance UX/UI designer both remotely and with companies in the greater Boston area. I provided both User Experience and User Interaction design services based on an hourly rate. My most notable project was a political web app: <https://www.callcongressnow.org/>

Testive, Inc: June 2015 to July 2016

I worked as a UX/UI designer who delivered beautiful and on-brand user experiences. My day-to-day ranged from prototyping new software products, building and updating Testive's customer website, and producing a variety of deliverables for Marketing/Sales.

Genesis HealthCare: 2012 to 2015

I practiced Speech-Language Pathology in the Greater Boston Area for almost three years. I worked with geriatric patients who had sustained strokes, traumatic brain injuries, and who were diagnosed with degenerative diseases.
