Andrea L. Williamson, UX/UI Designer

PORTFOLIO: https://andrealeigh.github.io/portfolio/

ABOUT

Seeking a company that engages its users, builds innovative products, and thrives on teamwork. I enjoy solving complex design problems and value collaboration across teams.

WORK EXPERIENCE

Education Modified: July 2017 to Present

As a UX/UI design consultant, I am redesigning existing and new features of their application and providing product design support:

- Wireframing and mockups
- Branding and style guide standardization
- Product design support for future feature discussions

TriNetX, Inc: January to July 2017

As a UX/UI design consultant, I redesigned major features of their application within the context of a complete front-end overhaul:

- User research & testing of redesigned features
- Wireframing, mockups, and clickable prototyping
- Design presentations for engineering leadership
- In-person beta product testing with current clients

Testive, Inc: 2015 to 2016

As the primary UX/UI designer, I led the design process for product design, branding/visual style, and HTML/CSS responsive web design:

- Product design for existing and new product development
- Responsive web design for marketing website
- Branding and visual style standardization
- HTML/CSS (And SCSS) development

Genesis HealthCare: 2012 to 2015

I practiced Speech-Language Pathology in the Greater Boston Area for almost three years. I worked with geriatric patients who had sustained strokes, traumatic brain injuries, and who were diagnosed with degenerative diseases.
