About

Seeking a company that engages its users, builds innovative products, and thrives on teamwork. I create effective design solutions and collaborate well with different teams including software engineers and groups within marketing/sales.

Core Skills & Deliverables

Fluency in:

- HTML 5
- CSS 3
- Sass/SCSS and LESS
- Responsive web design
- Adobe Illustrator
- UX/UI design via mockups/wireframes
- Project tracking with Trello
- Managing a design intern
- Collaborating with Marketing, Sales, and Software Engineers

Familiarity with:

- Github
- Project Management
- Content Writing
- Wordpress customization
- Hubspot Forms

Interested in learning:

- Javascript
- Adobe Photoshop
- User Testing and Research

Employment Experience

Testive: June 2015 to July 2016

I worked as a UX/UI designer who delivered beautiful and on-brand user experiences. My day-to-day ranged from prototyping new software products, building and updating Testive's customer website, and producing a variety of deliverables for Marketing/Sales.

Genesis HealthCare: 2012 to 2015

I practiced Speech-Language Pathology in the Greater Boston Area for almost three years. I worked with geriatric patients who had sustained strokes, traumatic brain injuries, and who were diagnosed with degenerative diseases.
